HYPERION

**REDEFINING
SOUND IN THE
HOME THEATER**

Introducing Hyperion, a groundbreaking line of Home Theater Audio Solutions that redefines the auditory experience. Our pre-processor and digital pre-processor harness the latest in engineering technologies, delivering unparalleled sound precision. The 16-channel immersive AV receiver, powered by GaN amplification, offers a stunningly dynamic and immersive audio landscape. Hyperion sets a new standard in home theater audio, transforming your living room into an acoustic paradise.

- Robust User Experience
- Works with popular streaming apps
- Advanced power performance with GaN amplification
- Redefines sound in the Home Theater
